Hi I'm J Lethal and I'm here to break bread, I bet ya girl  
a team player, I heard she quick to give up the head  
It's MMJ and I'm hailing from the Badlands, I stay  
strapped up like I came from Afghanistan  
I like to spit on these pussies, before I start to eat 'em  
And these rappers ain't shit now watch how quick I just  
delete 'em  
Mind so sharp, like a paradox, don't like my style blow  
dicks, kick rocks  
I'ma grind for my daughter even though I ain't got one,  
I'ma grind for my son even though I ain't got one  
A bad yellowbone, yeah you know I got one, break a  
swisher down and roll the purp up in a blunt  
No need to even lie, yeah I'm killing this shit, even an  
amputee would still be feeling my shit  
Ask anybody boy, I kick ass, bust heads, yo flow sick,  
my shit straight dead  
You a bitch, you a trick, you a motherfucking ass kiss,  
I'm a star, make a wish, I'm so above average  
I run up, get to shooting like I'm playing for the  
Mavericks, no beef here 'cause I'm all about my  
cabbage  
In case you didn't get it I'm here to set the record  
straight, I'm like a dentist with that chopper, I'll  
rearrange your dental plate  
I'm a Eastside nigga, 313 until the death of me, just  
throw me to the streets and tell 'em keep whatever's  
left of me
