"Let U Go"

You've been in and out my mind,
I think about it all the time,
The days they wind and wind.
I thought I knew it all,
But now I know
I, I, I, I never should've let you go.

Thought I was one of a kind
But now I watch the clock to pass the time.
I'd drop it on a dime,
Just leave the pen, forget the line.
I, I, I, I never should've let you go.

I want you by my side,
I'm like a groom without a bride.
I need you in the night,
I'm like the moon without a tide.
I, I, I, I never should've let you go,
Let you go.

Baby, I've been dreaming about you lately,
So where've you gone, please save me.
I, I, I, I never should've let you go.

Now I see, you did it all for me
And I, I never should've let you go.
Want you to know that
I'm sorry, I watched you walk away,
I never should've let you go.
