There's life in the ground

I feel it all around
I feel it in my bones
My life is on the line
When I'm away from home

When I step out the door
The jungle is alive
I do not trust my ears
I don't believe my eyes

I will not fall in love
I cannot risk the bet
'Cause hearts are fragile toys
So easy to forget

It's just another day
There's murder in the air
It drags me when I walk
I smell it everywhere

It's just another day
Where people cling to light
To drive away the fear
That comes with every night

It's just another
It's just another day
It's just another day
It's just another day

It's just another
It's just another day
It's just another day
It's just another day

It's just another day
When people wake from dreams
With voices in their ears
That will not go away

I had a dream last night
The world was set on fire
And everywhere I ran
There wasn't any water

The temperature increased
The sky was crimson red
The clouds turned into smoke
And everyone was dead

But there's a smile on my face
For everyone
There's a golden coin
That reflects the sun

There's a lonely place
That's always cold
There's a place in the stars
For when you get old, oh

It's just another
It's just another day
It's just another
It's just another day

There's razors in my bed
That come out late at night
They always disappear
Before the morning light

I'm dreaming again
Of life underground
It doesn't ever move
It doesn't make a sound

And just when I think
That things are in their place
The heavens are secure
The whole thing explodes in my face

It's just another
It's just another day
It's just another day
It's just another day

It's just another
It's just another day
It's just another day
It's just another day

There's a smile on my face

(It's just another day)
For everyone
(It's just another day)

There's a golden coin
(It's just another day)
That reflects the sun
(It's just another day)

There's a lonely place
(It's just another day)
That's always cold
(It's just another day)

There's a place in the stars
(It's just another day)
For when you get old
(It's just another day)

It's just another
It's just another day
It's just another day
It's just another day

It's just another
It's just another day
It's just another day
It's just another day

It's just another
It's just another day
It's just another day
It's just another day

It's just another
It's just another day
It's just another day
It's just another day
