They laugh at me out loud, they say I'm just a clown  
That I ain't got no ride, I'm on the outside  
The girls look really cute, they really make it work  
They think I'm just a jerk, I'm on the outside

I never could just steal, I never was too hip  
I never caught the ride, I'm on the outside  
I'm on the outside, I'm on the outside now

This is where it all begins, right here  
On the outside lookin' in, I'm on the outside

I never was a punk, I never shot junk  
I never even tried counter culture passed me right by  
(I'm on the outside)

Don't talk to debutants  
Don't eat in restaurants  
The patrons sit and stare  
The winners make wise cracks behind my back  
(I'm on the outside)

The teachers stare in school  
They throw me by the rule  
They said I had no motivation frame or dedication  
I think those imbeciles were right  
I'm on the outside, I'm on the outside  
I'm on the outside now

And this is where it all begins on the outside lookin' in  
Get in and you  
I'm just an alien going through  
Tryin' to make believe I'm you, trying to fit  
Just a stranger on the outside lookin' in

This culture makes me sick, I wear the wrong clothes  
I do the wrong things, you know I cant dance  
My feet are much to wide  
(I'm on the outside)  
And then you set the trims  
You wear your hair just right, your clothes are outta  
sight

Your house is modern really cute  
You get so macho when your with your miss  
(I'm on the outside)

I see them go to work, I see them go to school  
I see the moms who do it, I see them laugh and cry  
I'm on the outside, I'm on the outside  
I'm on the outside

(I'm on the outside)  
I'm on the outside  
I'm on the outside  
(I'm on the outside)  
I'm on the outside  
I'm on the outside  
(I'm on the outside)  
I'm on the outside  
I'm on the outside  
I'm on the outside now

This is where it all begins  
I'm on the outside lookin' in  
Get in and you  
I'm just and alien going through  
Trying to make believe I'm you, tryin' to fit  
Just a stranger on the outside lookin' in

I'm on the outside  
I'm on the outside now  
I'm on the outside  
I'm on the outside now  
I'm on the outside  
I'm on the outside now
