"Why'd We Come"

Visit "[Why'd We Come](#)" on MotoLyrics.com

Everyone says we've come such a long, long way
We're civilized, isn't that nice?
We've gotten so smart
We know how to blow the whole world apart
But when it comes to the simple things
Like living together, ha

Why'd we have to come all this way
Is anything any easier to understand
Why'd we have to come all this way
Are we any smarter than primitive men
We still fall in love though we know better
Anything at all just to stay together

Stop wasting all my time
Why did we come all this way
Why did we come all this way
Why did we come all this way
Why did we come all this way

Why'd we have to come all this way
We could have quit while we were way ahead
Why'd we have to come up like this
We could have just stayed home instead
The road was long and the journey was hard
We never even dreamed that we'd come so far, far, far

Stop wasting all my time
Why did we come all this way
Why did we come all this way
Why did we come all this way
Why did we come all this way

It didn't have to end up like this
It didn't have to end up like this
It didn't have to end up like this
It didn't have to end up like this
It didn't have to end up like this

Why did we come all this way
Why did we come all this way
Why did we come all this way

Why did we come all this way

It didn't have to end up like this
It didn't have to end up like this
It didn't have to end up like this
It didn't have to end up like this

Why did we come all this way
Why did we come all this way
Why did we come all this way
Why did we come all this way
