My knees are weak
My feet unsteady
But I know it's just a step away from here
Can barely reach
My arms are heavy
What I'd give to make it all just disappear

I've fallen but I'll..

Chorus:
Stand
When it all falls apart
When it feels like there's nothing left
to hold on to I'll stand

I won't ever walk away
Even though I know that I'm afraid
To fall again,
I'll stand

Might be bent
But I ain't broken yet
It's gonna take more than you got to break me down
Got nothing left
But a little hope and breath
And I'll make it last until the sun's around
I'm crawling but I'll..

(Repeat Chorus)

Standing for everything that I am
Yes I'm gonna make it through it all

(Repeat Chorus)
