love, far away from you
Cry, i believed in you
Tell me all your secrets
tell me about your life
telle me about my future
you want to live your life
change my life
and without a reason
you are breking me down
with lots of illusions
i will loose my emotions

Fire, i have seen the fire in you
Dream, i wanna share my dreams
Tell me all your problems
Show me all your life
Tell me the story of you and I

change my life
and without a reason
you are breking me down
with lots of illusions
i will loose my emotions

Can you feel ?
can you see ?
can you fly?
in my illusions
Can you try?
can you play?
can you find solution ?
i don't want anything from you

change my life
and without a reason
you are breking me down
with lots of illusions
i will loose my emotions
