take my hands and touch my soul
feel this flame in your heart
i am electric and you are mu volt
Emotions make me go insane
I just like you deep inside my mind
take my caress like the air of love
feel this flame in your heart
you are mine and nonbody's above
blood on blood, skin on skin
I just like you deep inside my mind

in my mind in my eyes
you are the one who burns my soul

there' no way to let it go
we have to live in just one heart
i don't know what is your game
sensations make me go insane
I just like you deep inside my mind
like the wind i will take your love
like the rain i wash your tears
no one else, anymore
Emotions make me go insane
I just like you deep inside my heart
in my mind in my eyes
you are the one who burns my soul

in my life in my time
you are the sun my only light
