### VERSE

You say life's got a lot of twists and turns  
You say you gotta love as well as you learn  
You gotta point your finger, stick it to the man  
You gotta rock out like you mean it, they're the terms

### CHORUS

It's only a thing called rock and roll  
Kicks you where it hurts and has a lot of soul oh yeah

### VERSE

Listen to the sound let the music take you up  
Give in to the rhythm let the backbeat fill your cup  
Move a little closer let your legs begin to shake  
You're gonna start to love it of that there's no mistake

### CHORUS

Yeah it's only a thing called rock and roll  
Kicks you where it hurts and rattles your soul oh yeah,  
oh yeah  
I said it's only a thing called rock and roll  
Hypnotise your brain and put some sun in your soul oh  
yeah

Instrumental

### CHORUS
