(Verse 1)

Baby, when you came into my life
Everything seemed to fit right
It's like we clicked, and I could tell that this was it
This was the boy I liked
I don't know how you swept me off my feet
You stole my heart so easily from me
And there is nothing stopping us
From love, love, love tonight

(Chorus)

We're gonna run
We're gonna get away from here
And leave them all behind
There's nothing wrong n
Nothing wrong with having fun my dear
So tell your fears goodnight
I won't hold back I've just begun
Tonight's the night and you're the one
We're gonna run and nothing's gonna stop us now

(Verse 2)

Tonight, let's leave them all behind
And we can make history
Can we forget about the past now?
None of it matters much to me
I only care about one thing that's you
So baby tell me what do you wanna do?
It's getting harder and harder to wait
I think we need to getaway

I don't know how
You swept me off my feet
You stole my heart
So easily from me
And there is nothing stopping us
From love, love, love

(Chorus)

Tonight we're gonna run
We're gonna get away from here

And leave them all behind
There's nothing wrong
Nothing wrong with having fun my dear
So tell your fears goodnight
I won't hold back I've just begun
Tonight's the night and you're the one
We're gonna run and nothing's gonna stop us now

(Bridge)

We're gonna run
We're gonna get away from here
There's nothing wrong
Nothing wrong with having fun my dear

(Chorus)

We're gonna run
We're gonna get away from here
And leave them all behind
There's nothing wrong
Nothing wrong with having fun my dear
So tell your fears goodnight
I won't hold back I've just begun
Tonight's the night and you're the one
We're gonna run
And nothing's gonna stop us now
