(Talking)

It's Johnny bitch and sometimes I just wanna dance
Do you feel me?

(Verse 1)

I just woke up I'm ready for the club
Bottles poppin' left and right
We're gonna blow it up
My girls are ready let's get it going crazy
We're going out tonight
Promise that I'll do you right

(Chorus)

Boy I will make your world
In the club with my girls
Spotlights fall on my cue
This floor's made for us two
Grab my waist and hold me tight
Sideways step from left to right
Two walks front until we spin
Drop it low like I can
Let's keep this part between us two
Once we dance I make them blue
Woo boys over yes that's true
Baby boy that's what I do

(Verse 2)

I see you boy just looking my way
Kind of mysterious looks like you want to play
Come over here I wanna see you dance
I'll make your mouth drop
I'm gonna shake my ass
Tight dress that fits real well
High heels if looks could kill
Makeup that's right on point
Make him think he's my toy

(Chorus)

Boy I will make your world
In the club with my girls
Spotlights fall on my cue

This floor's made for us two
Grab my waist and hold me tight
Sideways step from left to right
Two walks front until we spin
Drop it low like I can
Let's keep this part between us two
Once we dance I make them blue
Woo boys over yes that's true
Baby boy that's what I do

(Bridge)

Yeah you ready?
Come on, break it down
Baby boy, that's what I do, do, do
Baby boy, that's what I do, do, do
Baby boy, that's what I do, do, do

(Chorus)

Grab my waist and hold me tight
Sideways step from left to right
Two walks front until we spin
Drop it low like I can
Let's keep this part between us two
Once we dance I make them blue
Woo boys over yes that's true
Baby boy that's what I do (x2)

Baby boy that's what I do haha
