(Verse)

We were crawling out of step ground till we walked  
Secret for a while,  
The blood's okay so we fall,  
Still my car is so on sell cause you can say to me  
Let me get you, they get what they want.

(Chorus)

But you're in for love, you're in for love  
And you will find love.  
You're in for love, you'll still find love  
But you're in for love and you will find love.

(Verse)

You're forced, drunk, and your memory's stuck,  
You're forced, drunk, and your memory's stuck,  
Crashing into, to go back home you forgot  
Feel no good, they're not there, lost and you're lost,  
Take down into where she opens your heart.

(Chorus)

But you're in for love, you're in for love  
And you will find love.  
You're in for love, you'll still find love  
But you're in for love and you will find love.

You're in for love and you will find love
