"Wrapped Around Your Finger"

Visit "[Wrapped Around Your Finger](#)" on MotoLyrics.com

i got your message
i'm ready i just needed a little
time to think
time to breathe
i don't need to understand
what we percieve

i miss you and
every time you look at me
and when i think about it later
you make me feel crazy
you've got me wrapped
around your finger
don't anymore
make me linger

heal me
so just take me
and love me
past the midnight hour
you made me
got you on my mind

you've got me wrapped
around your finger
don't anymore
make me linger
