USED TO BE MY GIRL

The O'Jays

Good lovin, girls got plenty good lovin
Ask me how I know and I will tell you so
You used to be my girl I respect her
When she was mine, I used to neglect her
She wanted more than I could give
But as long as I live
She'll be my girl, she used to be my girl
She used to be my girl
She had a charming personality
The girl was so right for me
She's my girl
If I had the chance I know I would take her back
As a matter of fact, right away that day
My only complaint was ???????
The girl was so smart I couldn't keep her ????
Ask her how I know and I'll tell you so
She used to be my girl
And I still love her
I would place on one above her
She's warm and sensual
for as long as I live she will be my girl
If I had the chance I'd take her back
As a matter of fact right away
Good lovin, the girl's got plenty good lovin
Ask me how I know and I will tell you so
She used to be my girl, my girl
She used to be, used to be my girl
She used to be, used to be my girl
She used to be, used to be my girl... FADE
