Now I know wrote this song for somebody  
Cause I figure at some point in everybody's life  
We just feel like

### Verse 1

Lord I'm split in two  
Part of me loves the world  
And the other loves You  
So what do I do  
I wanna be saved  
But I got to stay cool too  
And no I'm not a fool  
I know eventually I'm gonna have to choose  
And really I don't wanna lose  
My ticket into heaven  
And a chance to be used by You

### Chorus

And if it's You I'm after  
Then I can't serve two masters  
And before something happens  
I got to turn it all around  
Because I know  
I can't just have my cake and eat it too  
Cause it's real easy to stay on the fence and still do you  
And it'd be cool if we could love the Lord and still go do  
our thing  
But see it doesn't work like that  
I got to be white or black

Oh ooohh

### Verse 2

Lord I've realized  
when it comes to sin  
You just don't compromise  
It's a matter of death and life  
Be weak and do wrong  
Or be strong and do right  
And I don't wanna keep going to church  
Singing about how much You're worth

And then continue doing my dirt  
Living as if I didn't care if You're hurt

And if it's God that I'm after  
Then I can't serve two masters  
And before something happens  
I gotta turn it all around  
Because you know  
You can't just have your cake and eat it too  
Cause it's real easy to stay on the fence and still do  
You  
And it'd be cool if we could love the Lord and still go do  
our thing  
See it doesn't work like that  
You got to be white or black

Bridge  
We saint's got to  
Get it together  
Just got to  
Get it together

And if it's God we're after  
We got to pick one master  
And before something happens  
We better turn it all around  
Because you know  
You can't just have your cake and eat it too  
Cause it's really easy to stay on the fence and still do  
you  
And it'd be cool if we could love the Lord and still go do  
our thing  
See it doesn't work like that  
You got to be white or black

Cause it don't work like that  
You gotta pick white or black...
