"All 4 U"

Visit "[All 4 U](#)" on MotoLyrics.com

It started with a pen and paper and passion you can't
explain
It's something that's in your vein, before baby could
say his name
Oh baby we up in flames
See that fire, that's desire, in his eyes feel like a fire
We crash and burn so many times

So many childs, feel like we got 9 lives
Feline pride, don't compromise, it's a bumpy ride
Don't let that drive inside die
Mama told him don't fold it, it's a louis moment
Take the pain and keep going, don't think it you gotta
know it
Believe it like you could see it, this seat is easily
granted
Proceed we abandon things we achieve ain't easily
handed
Used to pray so hard my knees should be bandaged
Can't keep my feet on the planet, dead in the clouds
I don't got plans on landing, my bedroom on landing
Got so many stories to tell
So low at times feel like I fell 4 stories to hell
I guess that's why I got a hell of a testimony
When you get to know me
By the time I'm 40 I guess I'll know why the top is lonely
Part of me died, dry my eyes, how you try to console
me
When I feel like I lost the only person that truly known
me
If everything that glitter ain't gold, then fuck a trophy
Life is for living live your live is what my pops told me
This rap shit will make you question your priorities
Don't fear the dark, just believe me, there'll be more of
these
I'm helping somebody right now, that push me more of
these
Cause in the end it's off but you, I give you all of me

[Hook]

1 meaning out of my life is all I know

Some get on Saturday night is all I know
One meaning had to be right, it's all for you, all for you
Cause you have been my world
1 meaning out of my life is all I know
Some get on Saturday night is all I know
One meaning had to be right, it's all for you, all for you

Wake up feeling like you ain't shit
Want truth but can't quit
Ain't worried bout making money,
We just tryina make it
Try to make it make sense,
To the folks we hold close
When money ain't coming in
Now everyone you love goes
With shows ain't paying off,
And jobs is laying off
The world don't stop for you
Keep going and shake it off
We trying to live adream, reality in the beam
It's sun first day in school, your daughter is in the teens
The things we contemplate, we barely could
concentrate
They tell you your time is coming,
But don't tell the time it takes
It's time to face the music, review the reason you
making music
I do it cause it's ...to you who relate into it
Lost niggas I was cool with, cause I chose to pursue it
Innocent days writing rhymes with dudes I went to
school with
Na?ve thoughts was a treasure as a child
But I've traded all my richness just to be here with you
now, let's go

[Hook]

1 meaning out of my life is all I know
Some get on Saturday night is all I know
One meaning had to be right, it's all for you, all for you
Cause you have been my world
1 meaning out of my life is all I know
Some get on Saturday night is all I know
One meaning had to be right, it's all for you, all for you.
