Champion, baby I'll be your champion

I heard the bell ring, I came out fighting for ya  
I felt at the time I was back in the corner  
But I'm giving my own show of what I'm made of  
I'm fighting for you, baby. I'm fighting for love

They can turn the lights out, they can go in the town  
I never give up for us, we got an other round  
And now Imma do what I gotta do,  
Cause I'm not leaving here without you, girl

Baby, for my second ring, I got the will to fight, cause  
you're in my life  
Got the chance to love again, won't never leave your  
side, cause with you

I feel like a champion, I feel like a champion  
I promise I get on, I got keep going like a champion,  
champion

Sometimes, it feels like we're on the ropes,  
I took some low blows and here is just how it goes  
And I can't live to the parts, we've gone too far (it's now  
or never)  
I'm a move for you like may you ever

They can turn the lights out, they can go in the town  
I never give up for us, we got an other round  
And now Imma do what I gotta do,  
Cause I told ya I'm not leaving here without you

Baby, for my second ring, I got the will to fight, cause  
you're in my life  
Got the chance to love again, won't never leave your  
side, cause with you

I feel like a champion, I feel like a champion  
I promise I get on, I got keep going like a champion,  
champion

And when it's all over I'll know I'll left it all I get on the  
floor  
It's because of you and it shows that I'm a half man  
Without my baby  
And baby let's celebrate it, cause I did it for you  
And you did it for me  
So Imma put my hands up, let put my belt on  
Thanks to you I'm a champion

They can turn the lights out, they can go in the town  
I never give up for us, we got an other round  
And now Imma do what I gotta do,  
Cause I'm not leaving here without you

Baby, for my second ring, I got the will to fight, cause  
you're in my life  
Got the chance to love again, won't never leave your  
side, cause with you

I feel like a champion, I feel like a champion  
I promise I get on, I got keep going like a champion,  
champion
