I'm not the wishing well
reflect on whats went gone and what could be
looking back at myself
I don't know why I'm drunk with thoughts like this
worries I know so well
are coming back to put me ill at, oh please

Chorus:

And I, I pray you won't leave me
though I'm afraid nobody stays for long
it stays away, if I could play to keep us together
I make a long with the money keep it for ourselves
stuck it up every..going down this wishing well

Stayed out the wishing well
with an empty money bag beside my feet
so if I call for help
these answer me before I'm on my knees
'cause if the reason it's nothing more than not myself
and me
and don't leave me down here in my sobriety

Chorus:

And I, I pray you won't leave me
though I'm afraid nobody stays for long
it stays away, if I could play to keep us together
I make a long with the money keep it for ourselves
stuck it up every..going down this wishing well

Hey, yeah ey ey ey ey
Uhh

worries I know so well
are coming back to put me ill at, oh please

[Chorus:]
