

JPAC "Victory Of My Life"

Visit "[Victory Of My Life](#)" on MotoLyrics.com

Eh my name is Jake, I don't waste my time all day
eating cakes, yeah I'm 14 years old
and oi mate that doesn't mean I watch UKTV Gold, I go
to a skool called Caroline
Chisholm but that doesn't mean I go to prison, I now
live down walkers way where
everyone stops and says Hey! And look mate I ain't
gonna write this song until May but
I'm gonna write this song in my own way. This is the
JPAC way and I might earn 50k

Going down the streets where thugs hang out but wait
one day and I'll bash your
whole team out with these spanking new lyrics.
Listening to drum n bass all day
having a rave and outsmarting those people who watch
Dave! Just thinking about you
every day and for your information I'm standing here in
the pouring rain, my friends
are ace and they are mates who are like IN YOUR FACE!

Look this ain't just a story about a gangster's life but
this is the Victory Of My Life
where my personality is tight
(Above Verse 1)

Chorus:

All of the citizens shopping around the centre having a
good time but it's good that
they're not creating crime. This is the world of grime!
The the the Victory of my life
(X3)

(Verse 2)

My name is JPAC and I'm a massive raver also I'm a bit
of a lifesaver, I'm a
newborn rapper can't you see just turn around and play
on your Xbox 360, all of
this spring weather is comforting me but everyday I
hear the annoying sound of the
bumble bee, so many badmen putting mud in my hair
but suddenly I'll throw you down

the stone stairs. Oh how I wish I could meet Giggs but
look mate he doesn't own a pair
of wigs! Sitting on the bench listening to my big stereo
but don't worry mate you'll hear
me on the radio. Some people call me a hero but no
one calls you because your phone
number is just a load of zeros! JPAC in the building!!

Chorus(x3)

All of the citizens shopping aorund the town centre
having a good time but it's
good that they are not creating crime. This is the world
of grime!

The the the victory of my life
(x3)
