(Verse)

I Wanna Know Who You Are  
'Cos You Crash Landed, Crash Landed  
Sitting Outside & Your  
Spaceship Is Damaged, It's Damaged,  
You Say You Gotta Get Back Home  
Back To Your Planet,  
I Don't Know Who You Are,  
But You Gotta Find Your Way Back To The Stars.

Remember when you told me (told me)  
You was an Alien  
Remember when you told me (told me)  
You was an Alien

(Chorus)

I don't know who you are  
but you gotta find a way back to the stars  
I don't know who you are  
but you gotta find a way back to the stars  
Because You're Just A Lost Alien  
Because You're Just A Lost Alien  
Because You'rre Just A Lost Alien  
And Im Never Gonna Leave Your Side,

(Verse)

I don't know who you are  
But you crash landed (crash landed)  
Swerving in and out of these lanes  
Tryna escape them (escape them)  
I'm running outta gas & a red-light  
With no options, I dont know who you are  
But I'm never gonna leave you on your own

Remember when you told me (told me)  
You was an Alien  
Remember when you told me (told me)  
You was an Alien

(Chorus)

I don't know who you are  
but you gotta find a way back to the stars

I don't know who you are  
but you gotta find a way back to the stars  
Because Your Just A Lost Alien  
Because Your Just A Lost Alien  
Because Your Just A Lost Alien  
And I'm Never Gonna Leave Your Side x2

(Rap/Bridge)

Look, Pretty Face Long Hair  
Theres no way that you're from here  
Got my mind spinning like a ride  
at a fun fair, to be so beautiful is unfair,  
Why you think you got them other girls  
wanting to be you, and you got them boys  
love strucked when they see you, any where  
you're gonna be that's where they wanna be too,  
I call them other girls glasses because they're see-  
through  
Beautiful you're on another level (WOW)  
You make a young man want to settle down  
Get romantic and get the petals out,  
Take you on cloud 9 and never let you down,  
you need to go back to your planet,  
I hope you don't though,  
Im sitting in the car listening to don't go  
And All I know is that you came from far  
Im tryna figure out who you are.

(Chorus)

I don't know who you are  
but you gotta find a way back to the stars  
I don't know who you are  
but you gotta find a way back to the stars  
Because Your Just A Lost Alien  
Because Your Just A Lost Alien  
Because Your Just A Lost Alien  
And Im Never Gonna Leave Your Side x2
