Searching In my mind
Trying to find the word
To say to you when we finally meet
Hoping you can be my four letter word
Without your loving I'm incomplete

Pre Chorus

Cos I'll do anything, anything to find you
If I took a bullet girl would it show I loved you
I'd run a hundred thousand million miles to make you
mine

Chorus

When I find my baby,
I'm gonna treat her like a lady
Cos I don't wanna be the fool to let it all go
Chase your love till I'm over, I'm over x2

Verse 2

Your the kind of girl, that I've always dreamed of
Your the kind of girl, that I thought about
Got my heart b-b-beating faster & faster
Got me stuttering all over and over girl

Pre Chorus

Cos I'll do anything, anything to find you
If I took a bullet girl would it show I loved you
I'd run a hundred thousand million miles to make you
mine

Chorus

When I find my baby,
I'm gonna treat her like a lady
Cos I don't wanna be the fool to let it all go
Chase your love till I'm over, I'm over x2

RAP

I want a girl that's hot like lava
I want a girl natural like guava
Out of a pyjama, with a whine like a yardy
Back like ghana, to climb on my banana
Night time drama, dun know we can whine and dine
after
I'll take you where there's sunshine and laughter
When girl come upon my corner
Me know sweat no harbour
Some mana move like paramour
I move more smooth when I'm on ya
I might start a convo and flow with it
Say anything and see how you go with it
The right way might show me you like me
A young legendary brother like Isley
I might make you all icy
If I make a million by friday
Or if your thinking like india arie then everything arie

Chorus

When I find my baby,
I'm gonna treat her like a lady
Cos I don't wanna be the fool to let it all go
Chase your love till I'm over, I'm over x2
