Listen, here me out uh
Well I should be in first place and I dont aim to stop
Like Kevin Rodolf imma let it rock
In our red mics til i wanna stop
But im on my way to my prime
And when i start to ryhme
You dont want to be my time
And as good as i am man i should be a crime
And I really dont want to hear you whine
Cause homie im fine with going like tarzan on a vine
And im done its over now homicide yea tell em what its
about

Yo
Its about to get ugly
Yea ya notice me now
Just call me and atom bomb cause im atracted to craow
Im spittin so fast that all you people say wow
And ill make sure that all you punks are really havin a
cow
You call me a gansta
Wait till you hear me spit flow
And i hope you posers know that im always ready to go
Gimme 12 good rounds and ill end the show
Red light
Yellow light
Green light
Go

Its Our time
Yo we dont need respect
We homerun hitters and we on deck so
Hear us out listen to our cry
Cause homeboy yea it is our time
