Verse1:

There is something out there shining bright  
Come with me let's catch it tonight  
Take my hand and never leave my sight  
Here in my arms, life will be alright

Chorus:

'Cus sometimes troubles try to tear you down  
But I will always keep you safe and sound

Verse2:

Feel the midnight breeze caress your face  
The stars shine bright upon us in this place  
I believe in you but just in case  
I'll be here awaiting your embrace

Chorus:

'Cus sometimes troubles try to tear you down  
Don't give up don't let them see your frown  
Hope is out there waiting to be found  
Until then I will keep you safe and sound

There is something out there shining bright
