Crash and burn, crash and burn, crash and burn
(Crash and burn)
Patience is the hallmark of the old and the infirm
To live to learn, live to learn, live to learn
(Live to learn)

Out lived their lust and traded want in for concern
Singing that's all right
Yeah, that's all right
Aw, that's all, all, all

So, you come on down, come on down, come on down
(Come on down)
Get out your pestilence and vice and pass them around
And blow this town, blow this town, blow this town
(Blow this town)
Jump off this ship before the shit just runs aground

Singin' that's all right
Aw, that's all right
Aw, that's all, all, all, all but

It's a disaster
It's an incredible mess
But it's all we've got now
Yeah, it's all we got

Howling with laughter
Panic, alarm and distress
But it's all we've got now
Yeah, it's all we got

Head or tails, heads or tails, heads or tails
(Heads or tails)
You dumb enough to break the mold or smart enough
to fail?
Oh, happy trails, happy trails, oh, happy trails
(Happy trails)
Can't beat a little bit of envy in your sails

Singing that's all right
Yeah, that's all right

Oh, that's all, all, all, all but

But it's a disaster
It's an incredible mess
But it's all we've got now
Yeah, it's all we got

Howling with laughter
Panic, alarm and distress
But it's all we've got now
Yeah, it's all we got

It's a disaster
It's an incredible mess
But it's all we've got now
Yeah, it's all we got

Howling with laughter
Panic, alarm and distress
But it's all we've got now
Yeah, it's all we got

It's a disaster
It's an incredible mess
But it's all we've got now
Yeah, it's all we got

Howling with laughter
Panic, alarm and distress
But it's all we've got now
Yeah, it's all we got

Yeah, it's all we got
