I lost a lot of time with you
I carec very little
And Now decided to change
I decided to take care of my life,I decided to live my
life
The distance from you,far from you
And now i must say goodbye to you,go to (2x)

Much time lost with you
Shortly took care of me,for you (For What?)
And now i do not know,i do not know
I decided to take care of myself,i decided to take care
of my life
I decided to take care of my life
The distance from you,far from you
And now i must say goodbye to you,go to (2x)

Take care of me,i decided to take care of my life
Too far you'll be fine
And now i do not know,i do not know,now
I decided to take care of my life (2x)
And now i must say goodbye to you,go to (4x)

And now i must say goodbye to you (2x)
