Eyes wide open  
Try to fall asleep  
Yeah-e-yeah  
For a second  
I can hardly breathe

Now I just hate to love you  
But I can't fake  
Wish I could be much stronger  
'Cuz I am about to break

I do the things I do  
To the things  
To the things I do  
All because of You  
'Cuz of you  
All Becuase of You

Do the things I do  
To the things  
To the things I do  
All because of you, you

Torn to pieces  
No more tears to cry  
Yeah-e-yeah  
Gave you all I had  
But found a lie  
Yeah-e-yeah

Now I just hate to love you  
But I can't fake  
Wish I could be much stronger  
'Cuz I am about to break

I do the things I do  
To the things  
To the things I do  
All because of You  
'Cuz of you  
All Becuase of You

Do the things I do  
To the things  
To the things I do  
All because of you, you

Suddenly, found myself  
Broken down, on my knees  
Hoping that someone  
Will bring back reality  
All of this happening  
Only because of you

I do the things I do  
To the things  
To the things I do  
All because of You  
'Cuz of you  
All Becuase of You

Do the things I do  
To the things  
To the things I do  
All because of you, you

I do the things I do  
To the things  
To the things I do  
All because of You  
'Cuz of you  
All Becuase of You

Do the things I do  
To the things  
To the things I do  
All because of you, you
