(Spoken)

We can not escape reality  
Adversity makes a hero  
We should never forget his loyalty  
He died for you and me  
He died for the USA!

My brother passed the test last Friday  
We got the letter today  
The sergeant said in his letter  
Your brother he was brave  
My mother cried all yesterday  
And she's still cryin' today  
My father said if only  
My brother was not so brave  
Now this affects each and everyone of us  
In it's own special way  
Search your hearts and ask yourself  
Do you deserve what you've got today  
The paper said he's a hero  
We should be proud  
Always remember  
He died for the USA  
He died for you and me  
For the USA.

I miss you daddy  
Can you hear me  
My Brother
