Verse 1

I will take your heart and breathe my love inside
It will beat once again for me
I will take your soul and pour stars' light inside
They will shine once again for me

Chorus:

Child of the Universe
You are made of love
Child of the Universe
You are God's flesh and blood
Your heart is beating inside GOD-Light

Verse 2

I will give you wings
Everything is within your reach
You can fly so high, for me
To find your inner peace

I will give you dreams
Start your journey from within
I will be there for you
Every step of the way and beyond
