

Ola "Brothers"

Visit "[Brothers](#)" on MotoLyrics.com

Like a shelter in the storm
I'll keep you warm
Know that you always can count on me
When everything fails
I'll be the wind in your sails
Know that you always can count on me

With you I am strong
I feel ten feet tall
If things go wrong you're there to break my fall

Refrain:
It's not our colours
It's not our race
That makes us brothers
No matter what we might face
It's not our last name
Not the blood in our veins
That makes us brothers
The love we share makes us the same.

Like the ground you walk on so solid and strong
Know that you always can count on me
Anything that you need
Even the air that I breathe
Know that you always can count on me

With you I am strong
I feel ten feet tall
If things go wrong
You're there to break my fall

Refrain:
It's not our colours
It's not our race
That makes us brothers
No matter what we might face
It's not our last name
Not the blood in our veins
That makes us brothers
The love we share makes us the same.

I want you to know
In my eyes you're heroes
And I can't imagine a life without
And if tomorrow never comes
I'll thank you for today

Refrain:

It's not our colours
It's not our race
That makes us brothers
No matter what we might face
It's not our last name
Not the blood in our vanes
That makes us brothers
The love we share makes us the same.

Refrain:

It's not our colors
It's not our race
That makes us brothers
No matter what we might face
It's not our last name
Not the blood in our vanes
That makes us brothers
The love we share makes us the same.
