The sun is rising up, my heart is racing  
I feel you're closer now  
Why are you pacing?  
Don't be so serious, we have a party  
Just be mysterious and move your body!

I wanna misbehave,  
Feel so free, only you can thrill me  
Like a wave, I just rave  
When I feel you near me  
All the way, lead astray,  
And I'll keep you in me  
Like a wave, I just rave  
When I feel you near me!

Rising up, I feel again  
That my love is true  
I'm in love with you!  
All the world is in my hands  
Dance with me tonight  
Make me feel alive!

Rising up, I feel again  
That my life is full  
I'm in love with you!  
And I hope it never ends  
Rising up, rising up, rising up, rising up again!  
I think I'm dreaming!  
Rising again  
I must be dreaming

I'm ready for you now, so come and get me  
And if you feel this love, don't ever let me  
I live a fairytale, it feels like flying  
I feel you closer now, is it worth trying?

I wanna misbehave,  
Feel so free, only you can thrill me  
Like a wave, I just rave  
When I feel you near me  
All the way, lead astray,

And I'll keep you in me  
Like a wave, I just rave  
When I feel you near me!

Rising up, I feel again  
That my love is true  
I'm in love with you!  
All the world is in my hands  
Dance with me tonight  
Make me feel alive!

Rising up, I feel again  
That my life is full  
I'm in love with you!  
And I hope it never ends  
Rising up, rising up, rising up, rising up again!  
Rising again  
No you got me dreaming

Rising up, I feel again  
That my love is true  
I'm in love with you!  
And I hope it never ends  
Rising up, rising up, rising up, rising up again!  
I think I'm dreaming!
