Verse:

Beat on the drum to let me know  
when you arrive, i lose control  
im feeling high, I see whats going down tonight  
Im gнна lose it alright

Pre-chorus:

If i could i would end it  
you got me so dependant  
Losing all my defenses  
cant stop myself before it begins  
im deeper in

Chorus:

You got that something that I just cant let go  
You make me wanna do the things I shouldnt do  
So leave me baby, Im going crazy  
Im begging baby please  
Show me a little mercyx3  
I cant take it no more

Verse:

You light a fire, inside my soul  
Put out the flame, wish I could let it go  
Cant trust myself, there is too much to like  
every second im with you im outta my mind

Bridge:

Every moment we're part I feel like it could break my  
heart  
but every step i take with you I know it just cant be true  
so turn around and walk away  
I have no words left to say  
let me down to bring me up  
only you can make it stop
