#### LOSING AMERICA

I closed my eyes, cause I did not want to see  
I closed my mouth, cause I had nothing to say  
I closed my mind to thoughts that would not go away  
But now it all  
It all comes back to me

I knew what was wrong  
And I knew what was right  
But I hid away  
I didn't stand and fight

Like everyone else  
I went about my day  
I didn't realize  
The price that I would pay

When it happened to them, I did not care  
When it happened to me, no one was there  
Where did the hope and wonder of life go  
I look around and no one knows

We did not, stand and fight  
Against evil men and make things right  
Dark night has fallen all around the world  
But I will never sleep at night, and I will never again be  
free  
I lay awake and wonder, when they'll come for me
