Inability

Show me the paper

Ownership faker

All of those Robo-signing problems

Employees approving without reviewing

Said can fix

Those clerical errors

Flawed mortgage banking Inability

Searching for my Trust Deed on my home

Judges say that there's a banker to blame

And I know it's their own damn fault

Bankers no longer

Chug a bong beer

Subprime Alt A loans foreclosing on homes

Delinquent borrowers

Successfully arguing

Mortgage companies don't own the loans

Flawed mortgage banking Inability

Searching for my Trust Deed on my home

Judges say that there's a banker to blame

Now I think, Hell it's for sure their fault

Certificate holders

No promissory notes

Their alleged rights of any sale are void

Home owners and investors

Stop focusing on bankers

Use universal loan modifications

Flawed mortgage banking inability

Searching for my trust deed on my home

Judges say that there's a banker to blame

But I know it's their own damn fault

Yes and some people claim there's a banker to blame

And I know it's their own damn fault
