### "Damn"

Visit "[Damn](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Remember it, like, like yesterday  
I blew you a kiss and,  
And then you blew me away, away  
You had me smiling all day, ey, ey, ey  
Never forget when you took em out  
Around the town, I didn't wanted to end, no  
Cause you blew me away, ey, ey, ey,

[Bridge]

In the back of my mind  
I knew you were the one  
In the back of my mind  
I knew that you were gonna make me fall in love  
I'm floating out

[Chorus]

There's no way to describe it  
It's just damn, dam, damn,  
Damn, damn, damn  
There's no way to describe it  
It's just damn, dam, damn,  
Damn, damn, damn  
There's no way to describe it  
It's just damn,

I be like damn, damn, damn  
Like martin said to gina and pam  
I just wanna stunt like jean claude van damme  
And you can stunt with me,  
I'ma ask in advance  
Cause when this paper come, you can come too  
However, whenever, it's notihng to me  
These other niggas tryin, they fuckin with me  
I be on my job, these niggas be lying  
They ain't on they job, they ain't even applyin  
So what is there to ponder about  
Set them niggas free and let them wander about  
We want the same thing, you ain't gots to lie  
Plus you beautiful as fuck and you ain't gots to try  
If fuckin you's a sin, then I gots to fight  
You ain't even have to, but I gots try

You got them lips, put these lips on mind couldn't  
miss  
We can shake the world with a kiss  
So imagine what could happen if we

We keep it cool we, we never change it  
Only gets better, something we can't throw away, ey,  
ey  
That's why we'll always stay, in love  
See what we have is not from this place  
Out of the planet, somewhere out of space  
Out of the galaxy,

[Bridge]

In the back of my mind  
I knew you were the one  
In the back of my mind  
I knew that you were gonna make me fall in love  
I'm floating out

[Chorus]

There's no way to describe it  
It's just damn, dam, damn,  
Damn, damn, damn  
There's no way to describe it  
It's just damn, dam, damn,  
Damn, damn, damn  
There's no way to describe it  
It's just damn
