As the day slowly turns into night
The sun now goes down as the moon takes its place
As the sky is held up so clearly
That in any moment the stars will go shine
As I see you coming near me.
My fingers get crossed as I look up and say...

Will this night favor my feelings for you
Will the stars fall down
To make my wishes come true
Baby listen to every word that I'll say
Believe you're in my heart.

Now the night is just here to stay
I'm hoping our eyes will soon find their ways.
Now as you smile I can see.
This chance that I'll take so
Now please take my hand.

Will this night favor my feelings for you
Will the stars fall down
To make my wishes come true
Baby listen to every word that I'll say
Believe you're in my heart.

This night may be ours forever
It's better to be late than never
So please do own and take my heart.

Will this night favor my feelings for you
Will the stars fall down
To make my wishes come true
Baby listen to every word that I'll say
Believe you're in my heart.

Will this night favor my feelings for you
Will the stars fall down
To make my wishes come true
Baby listen to every word that I'll say
Believe you're in my heart.
