Don't, don't tell me that you miss it
Just, just tell me that you cried over me

Persistence, repetition, It'd do you good to learn a little

Persistence, repetition, it'd do you good to learn
To not be scared of the thought,
So then go for the touch but then close with a kiss

But this is dangerous
This is dangerous
For us

Yes this is dangerous
This is dangerous

So let's try,
We won't ever know who's the lover or who's the liar
So let's try, cos this winter will get so cold without you

But this is dangerous
This is dangerous
For us

Yes this is dangerous
This is dangerous
And it's always here, always

Its hard to say
But the words choke out
And Its barely a whisper
But it's just so loud

You're better off
You're better off

I'll remember your name
And the way you looked
And how you liked to dress
Because I see you again

You're better off

You're better off

Its hard to say
But the words choke out
And Its barely a whisper
But it's just so loud

You're better off
You're better off

Leaving in that car
Had you for just a little while
Looking from the backseat
You gave me that smile of yours

You're better off
You're better off
Without me

But this is dangerous
This is dangerous
For us

Yes this is dangerous
This is dangerous
And it's always here, always
