Make Make

There's no way out no way in

To the hallowed halls

The inner ring

You're just a face

In the crowd

You got no place when you're down and out

Mona Lisa you can stop searching

Don't you know we're not Virgin

We're on the Make Make

We only Take Take

We're on the Make Make

We accumulate

We're on the Make Make

Don't mid it's Fake Fake

We're on the Make Make

We make heartbreak

Make Make

We build our tower

On shifting sand

You got no idea what's changing hands

No chivalry

Who cares what you feel

This is not the place for high ideals

Mona Lisa you can stop searching

Don't you know we're not Virgin

We're on the Make Make

We only Take Take

We're on the Make Make

We accumulate

We're on the Make Make

Don't mind it's Fake Fake

We're on the Make Make

We make heartbreak

Mona Lisa you can stop searching

Don't you know we're not Virgin

We're on the Make no sympathy we're sacrosanct

We're on the Make no charity no thanks

We're on the Make Make
