Oldfield

Hey sweet prince I love your hair of darkest violet
Hey sweet prince I love your eyes that twinkle at twilight
Hey you're gonna be a king when the dawn rises from
the sea
And you're gonna love me when all our golden lands
are free
Lady Mary is making kisses out of starlight
She's deep in love with the sweet kings of the earth
Hey cool princess
With your eyes hung in the milk of the moon
Hey pretty princess
Take me down to your cave at dawn
Hey you're gonna be a queen
When the stars water heaven with tears
And you're gonna love me
When all our golden lands are free
Lady Mary is making kisses out of starlight
She's deep in love with the sweet kings of the earth
High king
There's love on your brow like the spring tide
High king
Give me princes to walk by my side,
Hey king of earth
You are gentle and new like the moon
And it's you I love,
In the heaven comin' soon
Lady Mary is making kisses out of starlight
She's deep in love with the sweet kings of the earth
