Some might consider this a problem,  
I easily fall in love.  
Excuse me If I touch, you the baddest in the club  
I desire your body, exotic, I just cant get enough  
You the baddest thing (oh, ohh, ohhoh)  
You the baddest in tha buildin'  
My money super right  
Got whatever parked outside you can leave with me if  
you like  
You tha baddest in tha building (x4)  
Do it in the mirror, make your body jerk  
(Pressure when we sex so it's gotta hurt)  
Got your hand on my head while I'm chewin' on your  
kitty  
I'm the cutest in the city in tha collar shirt  
Gotta million dollar swagg pants hang off my ass  
And the money commin' fast, imma lot of work  
Few festivities we can peep this evening  
Thinking we can both leave we don't need a reason  
Got the window top flight out to Puerto Pico  
Butt-naked in the tub with tha evenin' steamer  
Put the weed up when you see the people  
My chick to be might get pissed at me,  
When she catch me sneakin' with another skeezer  
Wild out in the club, real street nigga hold ya bottles up  
Other niggas wanna tend to follow us  
I'm in the V.I.P. section don't bother us  
You know you couldn't see me with binoculars  
Pappariatzi think's I'm popular  
Luca Brasi get's on top of her  
Make her holla like an opera  
(All these lights in the house  
All tha candles in tha bathroom  
Step out of ya bath robes,  
And welcome to my class room)  
Bubble gum, Bubble bath, mo' positions  
Life jury-cited know some mo' postions  
Spread your booty cheeks imma lick all in between  
While I hit you from the back in the slow position  
Get it from the side, Get on top and let you ride  
Then after that you can do that bad position  
My money super right

Got whatever parked outside you can leave with me if  
you like  
You tha baddest in tha building (x4)  
I just spotted the baddest bitch in the building tonight  
and I aint leavin' less she leavin' with me  
I over heard you told tell ya girl ya nigga wasn't fucking  
you right  
I been drinking plus I done threw me back three  
Imma hit you with uh hh that I done came down  
I ain't finna' front you the fly-est thing round  
Head to tha toes, shoes to tha clothes  
Ducks get played, bad bitches get choose  
Bad bitches get their ears neck and wrist froze  
Boss bitch swag, you be shittin' on them hoes  
Love when you pose when them niggas take flicks  
Pull up to the club stuntin' hard in the six, six  
Drop the top I pull out the knot,  
I make all them hoes bow down to you  
Cause they aint on ya level, imma change ya life  
They aint got no business hangin' round with you  
I'm down to do anything you down do,  
Go anywhere you down to go  
You don't wanna make love imma beat it up,  
But when you 'bout to bust imma start grinding uh hh  
Baddest in the building  
My money super right  
Got whatever parked outside you can leave with me if  
you like  
You tha baddest in tha building (x4)
