Shine On

I wanna shine like the sun
Warm all day long
I wanna shine like the sun
all day long, gunna shine on

Cuz we gonna dance in the sea
All of you and all of me
and we gonna surf the sky
All day, till the morning light

Cuz we gotta love, a world full of love
Make you all smile
A world full of love
Raining from above
Would make it all shine
Shine

I wanna shine like the sun
Warm all day long
Then we gunna surf the sky
All day till the morning light

Cuz we gotta love, a whole lotta love
Would make you smile
A world full of love, raining from above
Would make you all smile
A world full of love, raining from above
Would make it all shine, would make it all shine
Shine on, shine on
