

The Khanz "Wolves"

Visit "[Wolves](#)" on MotoLyrics.com

My fur robe, just keeps me cold
but don't let me know why they start crying wolf
Cause lately my diamonds have been turning back to
coal
So don't let me know
Why I'm howling for

Where my wolves at? ah-wooh
My heart is dripping, why can't they taste it?
I've chased them hell and back, now where my wolves
at?
Help me get my wolves back

And I've been knocking at your door before
With my eyes staring down at the floor
You've got me barking like a dog
So don't let me know when your nose starts to grow.
Cause I've got to chase their tracks and get my wolves
back

Now where my wolves at? ah-wooh
My heart is dripping, why can't they taste it?
I've chased them hell and back, now where my wolves
at?
Help me get my wolves back

Help me howl my friends back.
Help me howl my wolves back.

Do you taste it? Do you taste it?
Does it remind you of all the things you've been
missing?
When you taste it, does it drive you crazy?
Does it remind you? Does it remind you?

Where my wolves at?
Help me get my wolves back
