

Kickstart The Season "Take Me Out"

Visit "[Take Me Out](#)" on MotoLyrics.com

I know you're waiting on me
Cause you have me where you want me
And I see your coming for me
Like a moth to a flame
You've got a hold on me

A ghost with no face,
You came for a chase
You know you got me
And you'll take me out of here
My body's aching, my hands are shaking
You know you got me
And you'll take me out of here

Every time you come around,
I'm always the one to drown.
And you're always haunting me
Through the busy streets and the busy crowds
You've got a hold on me

A ghost with no face,
You came for a chase
You know you got me
And you'll take me out of here
My body's aching, my hands are shaking
You know you got me
And you'll take me out of here

A ghost with no face,
You came for a chase
You know you got me
And you'll take me out of here
My body's aching, my hands are shaking
You know you got me
And you'll take me out of here
