It seems all i do is work its like i never stop
friday night we stop off at the liquor shop
cause' its time yeah we going out
we livin' our life, got nothing to care about
yeah we young yeah we dumb but we just having fun
hit the club in the section smoking weed by the tonne
but this is rule number one
aint allowed to leave till the rise of the sun
so start rocking my tunes
a big night ahead sleep till half past 2
a crazy life of a kid
theres nothing in the world that i'd switch it with
you only live once so imma live it while i can
never growing up call me the next peter pan
and i aint acting a man
find a nice girl to rock a one night stand
with this life so bliss
i wouldnt change shit thank god for my gift
roll another 4 spliffs rock new kicks
on the mic just spit
the so fly's coming through
llivin' in the now kickin' back with the crew
on the move on the rise glide so high
smile at 'em haters while im driving by

Live for now not for tomorrow
drinking till nothing left in my bottle
and i aint gonna remember shit
its my life homie this is it

Live for now not for tomorrow
drinking till nothing left in my bottle
and i aint gonna remember shit
its my life homie this is it

I love to go out on the town with my bros
oh no plans see where the night goes
bout the good times dont worry bout the ho's
but ill find a nice girl that i can motorboat
drink the purp just smoke the herb
my bed for the night probably end on the curb
woken up in the morning by the P.O

leg it straight home climb through the window
we just some kids just dont give a fuck
stop the whining turn the bass up
listen to it loud live our life proud
on the high life yeah never coming down
listen to me man only one chance
as a kid dont get fooled by romance
kick back with your homies chill and smoke up
this is our time so we gonna live it up

Live for now not for tomorrow
drinking till nothing left in my bottle
and i aint gonna remember shit
its my life homie this is it

Live for now not for tomorrow
drinking till nothing left in my bottle
and i aint gonna remember shit
its my life homie this is it

Live for now not for tomorrow x4

Live for now not for tomorrow
drinking till nothing left in my bottle
and i aint gonna remember shit
its my life homie this is it

Live for now not for tomorrow
drinking till nothing left in my bottle
and i aint gonna remember shit
its my life homie this is it
