Look at us
I wish you good luck
No definition is worthy of this sensation
Don't give up
Please don't stop
No one thought to name that kind of contact
That kind of attention, sweet attraction

I - I - I - never felt this way
I - I - I - wanna feel it again
The answer is simply on my lips

Find your crown
And I'll allow
This memory to provide a new connection
Not a sound, no none around
Such a verb deserves an invitation
Then this pleasure, sweet affection

I - I - I - never felt this way
I - I - I - I wanna feel it again
The answer is simply on my lips

Soft, there's no time to define, to describe.
And light the fire, each way, somehow

The answer is simply
I - I - I - never felt this way
I - I - I - I wanna feel it again
I - I - I - never felt this way
