[Chorus]

Welcome to my torcha chamba  
Welcome to my blood stained room  
Gonna see your worst danger  
Gonna meet your final doom

[repeat Chorus]

Lock me in with strange put me in a rubber room  
It won't help a bit with when I'll thoughts consume  
My mind losing all rational thoughts in reality  
Multiple personalities battle me  
And I snapped cause I can't control the things that I do  
I wanna hurt people when the fantasy's through  
I walk in the dark and I look for my victim  
Like a Pit bull I see them and I sick them  
I get so much joy out of seeing people bleeding  
They took my cat scan showed the vision of a demon  
I fiend in blood like a crack fiend wants drugs  
I love dead bodies with maggots and bugs  
Yes I wanna stab, slice, stomp and beat  
Freddy has nightmares about me on elm street  
Where did I get all this aggression and anger?  
I take it out on people when I'm bring em in to the  
chamber

[Chorus] - 3X

You walk through the hall you can hear the muffled  
screams  
It aint a bad dream but it's worse than it seems  
Blood is splattered everywhere it don't matter  
You afraid, piss in your pants can't hold your bladder ?  
What's the matter did you see my cruel experiments?  
I do all of this sick shit for my own merriment  
People getting stabbed, people getting hurt  
People getting shocked, people getting burnt  
Nothing compares to the pain that I inflict  
So close your eyes bitch I'm just too sick  
No one ever made it out except this one nigga  
But he left here permanently disfigured

Cause I peeled off his skin, took the skin off other men  
And then I sewed it on him  
Hispanics, Asians, whites and blacks  
He looked like a quilt he had different coloured  
patches  
Then I took all the skin that was left  
I made a dope outfit and I sported it myself  
No one knows the pain that you're feeling  
Blood dripping down the walls and vital organs  
hanging from the ceiling  
Come on down to the chamber underground  
Ropes and chains leave you tied up and bound  
No one gets out when you're here you're mine  
Q Strange can't stop committing crimes

[Chorus] - 3X
