How can I make the world go away
When concrete is all around me
Seems that I'm falling up and not down
Now I wish I could find me a landing
You tell me you love me, then leave me again
And my poor heart it just can't stand it
It's not right

You keep me hanging like a ball outta bounce
You pick me up and then you kick me around
You keep me hanging bet you're fooling around on me
I bet you do

I'd leave you faster than a house on fire
But I wanna believe in something
Like pieces of paper just tossed through the wind
Well I'm flying, I'm caught, I'm running
I tell myself that I want back a life
But it seems that I don't own nothing
It's not right

You keep me hanging like a ball outta bounce
You pick me up and then you kick me around
You keep me hanging bet you're fooling around on me

I say you keep me hanging, now I'm stuck in the air
You pick me up and then you leave me there
You keep me hanging bet you're fooling around on me
Yeah yeah

You keep me hanging like a ball outta bounce
You pick me up and then you kick me around
You keep me hanging bet you're fooling around on me
