I die each time she comes around
And tries to put all her charms on to you
She knows her eyes, her smile are so inviting
Things I'm too shy to do

If I just stand on by, what fool am I?

'cause She will make you want her
She will make you love her
She knows what you're thinking too
She just wants a lover, you'll end up another
Casualty without a clue
She knows just exactly what she's doing
She knows, she knows, she knows

She'll lie, she'll buy you up
With all her lines too
Something I see right through
And you know now, I try, but I try
Still somehow I'm not finding
What I should say to you

But if I just stand on by, what fool, what kind of fool am I?

'cause She will make you want her
She will make you love her

She knows what you're thinking too
She just wants a lover, you'll end up another
Casualty without a clue
She knows just what she must do

She knows, she knows, she knows

Okay it's time I say I'm not afraid
And you know now I'm no liar

I can't stand on by, no fool am I

'cause She will make you want her

She will make you love her

She knows what you're thinking too
She just wants a lover, you'll end up another
Casualty without a clue
She knows just what she must do

She knows, she knows, she knows, she knows
She knows, she knows
