Suicide... my only thought
Like the silence in the dark it haunts my world
A lonely soul, lost from the path of life
I am weak... I am strong... I am soon to be dead

A journey to the world of twilight
The last chapter of my life, it's now ending

The blood on the ground beneath my feet
The knife that I hold in my hand
Shall be the cause of my death

Slowly fade away
To the other side
My final words shall be
Fuck this world...

Ending my life
I will be gone tomorrow
Slowly I fall
My soul has left my body

A journey to the world of twilight
The first chapter of my life, it's now ending
