How beautiful my town tonight
I'm alone with my bike
No, I cannot sleep tonight
For a moment I close my eyes
It seems to fly
No, I cannot stop tonight
Now you don't see how I'm feeling?
There's no one but me
This is my revenge, I am the king
Tonight there's one thing that I needed
I want to be alone, alone with my city

Sick of the night
And Sick to wait any love
I'm riding along a dark desolate road at night
I would stop time tonight
I know what to do
No, I cannot sleep tonight
I walk back to my home
I'm at peace with myself
No, I cannot stop tonight
Now you don't see how I'm feeling?
There's no one but me
This is my revenge, I am the king
Tonight there's one thing that I needed
I want to be alone, alone with my city

Sick of the night
And Sick to wait any love
I'm riding along a dark desolate road at night
One day I will find
The final way
But now I wanna be alone

Sick of the night
And Sick to wait any love
I'm riding along a dark desolate road at night
