After the earthquake in Haiti, I saw  
People were moved in front of the images on TV  
Many helped quickly, but there's still much work to do  
Nobody knows what they are doing, nobody knows  
where did the money went  
I fear that people might forget, that people live in  
camps  
What's the plan for reconstruction, I haven't heard of it!  
After all this time piles of rubble still lay in the streets  
What's the plan for reconstruction, I haven't heard of it!

No Food, No Water  
No more aid for Haiti!

Children today are still living in the streets  
And many girls get raped, I could not believe  
Despite all the aid and United Nations troops  
That nothing seems to be moving in the right direction  
I fear that people might forget, that people live in  
camps  
What's the plan for reconstruction, I haven't heard of it!  
After all this time piles of rubble still lay in the streets  
What's the plan for reconstruction, I haven't heard of it!

No Food, No Water  
No more aid for Haiti!
